CYCLONE SWEPT OKLAHOMA.

Further Particulars of the Awful Catastrophe.

Many Fatalities.

Guthrie, O. T., April 27. The very latest and most authentic information obtainable from the cyclone devastated section of the Territory is to the effect that from 50 to 60 human lives have been lost, 25 people fatally injured and 100 more with injuries more or less serious. Five distinct cyclones visited different parts of the Territory between 2 and 9 o'clock r. m. Tuesday, and it be days before the full amount of damage will be known.

known.

One man living some distance from the track of the cyclone found two dead bodies in his yard yesterday morning. A baby that escaped the cyclone was

Killid by Hallstones. At Langston, east of here, thirty houses were demolished and the child of A. Jones was killed. A man named Howard was fatally injured and a dozen others seriously hurt. The villages of Ransom and Cimasvon were wiped out and several people killed in each. Near Perkins, James Kirk was fatally injured and his boy killed. Thomas Culner had both legs and arms broken. Authony Mehan and daughter were killed and a dozen others were badly injured.

Either this same cyclone or another one did great damage across the Canadian river in Chicknasw country and a number of lives were lost there. The Catholic priest stationed at Purcell telegraphed here for aid, last evening, stating that 11 of his congregation had been killed. The Eryant family of five members was killed. It was a good story and was intended to glorify Grover, the big engine, the big hoilers and the big dynamos, all of which are big in their way and deserving of great glorification. Unfortunately for the story, nothing of the sort will be done. As a matter of fact a very small wire will be run from machinery hall to the speakers' stand and back again, forming an open circuit in which an electric battery and bell will be placed. So when President Cleveland pushes that celebrated button the circuit will close and the bell will ring. A big, strong man stationed at the valve open. After which all the phenomena above described will take place, only there will be a man in the arrangement who was left out in the other programme.

Professor Dodge, of the navy said he knew of no arrangements to actually start the big engine by electricity, though he said it could be done by means of a small electric motor attached to the valve.

Chief Engineer Robinson expressed ignorance of the details of the start but both these genthemen intimated that it could probably be done best by the use of an intermediare man to do what Grover is popularly supposed to do-start the maprogramme. popularly supposed to do-start the machinery.

Since then they have embraced civilization, and in a great measure Christianity, and are most eager in their search for knowledge. I think it may be truly said that they are one of the most progressive nations of the age,—not by any means the most enlighten do not misunderstand me,—but one making the longest strides onward and upward. They have schools, churches, art leagues, and the nucleus of a navy of which any nation might well be proud.

A Japanese told be a few days ago that Japan had already twonty war ships, "all same Nanira," which is how lying in Honolulu harbor. The 'Nanira' is of French build, a large heavily armed cruiser (our own American, "Charlestin" was modelled after her) thoroughly modern and up with the times in every way, and is manned and officered entire by Japanese. And if there are nineten more "all same" across the sea,—why Japan must be getting ready to hold her own upon the high seas. This she intent is to do, and not only to hold what she has already, but to get more to hold.

March 841,657.87. This was a decrease Distinguished People Attend But the Event Was Informal.

New Your, April 22. About one o'clock the rain ceased to fall but, clouds continued to hover about in a threatening manner. President Cleyeland, 'accompanied by his wife and Lieutennant Wood, left the Victoria Hotel at 1.05 r. m., and eight minutes later his party arrived at the foot of West 23rd street where the thousands of men and women who stood in the rain for four hours cheered him enthusiastically.

The party was immediately escorted to the launch of the Dolphin which started away as soon as the company was on board. The launch steamed rapidly out to the Dolphin. As soon as the President reached the deck bang went one of the Dolphin's guns. The President's flag was unfurled at her musthead.

with the committee on board rounded the head of the double column of men-of-war, and started down the river on the New York side. The Al. Foster followed and the police patrol tugs fell in line, two by two. After them came tugs, steamboats and steam yachts, two and three abreast, all with whistles blowing, men shouting, and women waying their parasols as they passed each man-d-war.

The commotion that followed was never equalled in the Hudson river. The crew of the war ships faced the rull and waved their hats and handkerchiefs at the noisy tugs and steamboats. As they passed the steam yachts saluted the men-of-war with one gun, which sounded like a toy piscol after the big guns of the men-of-war.

The whistles of the tugs and steamons

The whistles of the tugs and steamers kept up a continual tooting and blowing from the time they were given permission to start until the lower end of the long ine of the squadron was reached.

The reception of the Admirals by the President lasted until 4.40 r. M. Then his flag was hauled down on the Dolphin and he went ashore at 96th street.

At a signal from the Philadelphia the guns of the entire flest belohed forth simultaneously. Each vessel fired twenty-one shots and the roar that ensued was destrains

one shots and the roar that ensued was deafening.

When it had subsided the smoke hung in heavy clouds over the river and the Jersey shore was invisible for some time. The Admirals returned to their ships. The steamfoots which lingered with the passengers desirous of seeing all of the great naval pageant went to the plers and the ceremonies were over.

Besides the President and his advisors, there were present representatives of the, chief legislative body of the Un ted States the Spanish grandee who is a lineal descendant of Christopher Columbus, the diplomatic corps, admirals and subordinate officers of every great naval power in the world, the governors of neighboring States and famous army officers.

The decorations of the Garden were rich and elaborate, eclipsing in magnificence and elegance anything ever before attempted in the great anditorium.

Many handsome and unique designs in electric lights were shown. A magnificent model of the Mational Capitol, oreated of white flowers and illuminated with electric lights, rested on the stage of the assembly room where the Hungarian Band was stathoed. MALICIOUS YOUNG RASCALS. Force Bussell Lacount to Swallow eighteen Pills.

Russell Lacount, an eight years' old boy whose parents reside on Congress street, was in a somewhat dangerous condition yesterday as the result of the bad treat-Order Passed Authorizing the Use ment at the hands of a number of young rascals who live on the east side. The of fair occurred on Broadway Park Wednesday afternoon while the boys were at play. It seems that he had a new ball and the other boys wanted to take it but he did not care to give it up and refused their demands. Some of the boys had in their pockets a number of packages of pills which had been left around the city at doors and some young termenter hit upon the idea of making young Lacount take

them. They throw him down and held him and then opening his mouth forced him to swallow eighteen of the sugar couted pellets. A man who was passing at the time young ruffians ran away. The Lacount boy was already beginning to feel sick but he managed to run home, and told the story of what had happened. He was put to bed and a physician was lastlly

He found the hoy in a very dangerous condition and had to work ever him some time applying strong restoratives. The terday young Lacount was much better.

The parent of the boy should see that the boys who acted in this outrageous way are taught a lesson which they will not Petition for a sewer in Carroll street, forget, as they owe it to themselves and the community alike that the matter should not be passed lightly by.

AMUSEMENTS. Rest Week at City Hall

The Daniels' Specialty Company have quite a change in store for their patrounext week. They are going to play a number of new specialty artists in addition to the present company, as they think that our city will support these entertainments, which have proven very popular during the several weeks engage ment here. Last evening there was another large attendance and the audience was well satisfied with the variety of Incog.

Of "Incog," which will be presented a:
